Q1

Which agency do you represent?

NYS DOT

Q2

What is your role within your agency (title)?

Deputy Director Office of Contract Management

Q3

1-5 years

How many years of experience do you have with the AASHTOWare Project software?

Q4

Weekly

How often do you use the software?

Q5

**AASHTOWare Project Bids,
AASHTOWare Project Preconstruction**

Which modules do you currently use?

Q6

How likely are you to recommend the AASHTOWare Project software to a peer or colleague?

(no label)

Likely

Page 2

Q7

What is your favorite functionality/feature of the AASHTOWare Project software?

Filters

Q8

How satisfied are you with this software's ease of use?

(no label) **Very satisfied**

Q9

How satisfied are you with this software's functionality?

(no label) **Very satisfied**

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

- | | |
|------------------------------------------------------------------------------|----------|
| Functionality – Asset management, alternative project delivery, etc. | 2 |
| Usability - Creating more wizards, easier inputs, better/more graphics, etc. | 1 |
| Current Requirements missing – materials standards, AASHTO/ASTM standards | 5 |
| Mobile Functionality | 3 |
| Third Party Integrations | 4 |
-

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label) **Very satisfied**

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label) **Very satisfied**

Q13

Respondent skipped this question

Any additional feedback for Infotech?

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label)

Neutral

Q15

Respondent skipped this question

If you feel the PTF doesn't align the software to meet your needs, please explain why.

Q16

Respondent skipped this question

Are you open to a follow-up conversation about your responses? If so, please enter your email address here.

Q17

Somewhat satisfied

Q13

Any additional feedback for Infotech?

It's difficult for agency support to not get resolutions to issues promptly. I understand ITI personnel are supporting multiple states, but we've been dealing with stockpile and funding issues for quite some time, it seems when one issue is "resolved" there is a consequence to that resolution. I feel like sometimes we've been the guinea pig trying to find issues that shouldn't have been issues since we were the first state to put construction into production.

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label)

Neutral

Q15

If you feel the PTF doesn't align the software to meet your needs, please explain why.

I don't think that they don't align the software, I just think the software is such a beast it's difficult to prioritize. Some PTF members have knowledge of a particular "module" and can stress the importance of needs for that, maybe at the expense of other needs.

Q16

Q3

1-5 years

How many years of experience do you have with the AASHTOWare Project software?

Q4

I manage staff that use the software

How often do you use the software?

Q5

Which modules do you currently use?

**AASHTOWare Project Bids,
AASHTOWare Project Preconstruction,
AASHTOWare Project Construction & Materials,
AASHTOWare Project Data Analytics**

Q6

How likely are you to recommend the AASHTOWare Project software to a peer or colleague?

(no label)

Extremely likely

Page 2

Q7

What is your favorite functionality/feature of the AASHTOWare Project software?

All contracts in 1 single database

Q8

How satisfied are you with this software's ease of use?

(no label)

Somewhat satisfied

Q9

How satisfied are you with this software's functionality?

(no label)

Somewhat satisfied

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

Functionality – Asset management, alternative project delivery, etc.	4
Usability - Creating more wizards, easier inputs, better/more graphics, etc.	2
Current Requirements missing – materials standards, AASHTO/ASTM standards	1
Mobile Functionality	3
Third Party Integrations	5

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label) **Very satisfied**

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label) **Very satisfied**

Q13

Respondent skipped this question

Any additional feedback for Infotech?

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label) **Neutral**

Q15

Respondent skipped this question

If you feel the PTF doesn't align the software to meet your needs, please explain why.

Q16

Are you open to a follow-up conversation about your responses? If so, please enter your email address here.

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label) **N/A (Implemented by internal staff)**

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label) **Very satisfied**

Q13

Any additional feedback for Infotech?

I feel it is important to address the 'intent' of the law rather than simply following the 'letter' of the law. I feel a greater focus on what would make a successful outcome would be extremely beneficial, especially when planning and estimating requests. Estimates should always include tangible deliverables and, at a minimum, progress should be reported against those deliverables.

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label) **Neutral**

Q15

If you feel the PTF doesn't align the software to meet your needs, please explain why.

The existing software foundation is a bit clunky, inconsistent within and across modules and buggy making it tricky to be nimble. And, while the PTF impacts the strategic direction and associated committees impact tactical requests/requirements, they do not impact design. And, rewrites are expensive. So, you do the best you can with what you have. Bringing in 3rd party tools is exciting, as is the potential of open API data integrations. Besides, one software to support 52 different ways of doing things is just plain challenging.

Q16

AASHTOWare Project Preconstruction**

Which modules do you currently use?

Q6

How likely are you to recommend the AASHTOWare Project software to a peer or colleague?

(no label)

Neutral

Page 2

Q7

What is your favorite functionality/feature of the AASHTOWare Project software?

VENDOR INFO

Q8

How satisfied are you with this software's ease of use?

(no label)

Somewhat satisfied

Q9

How satisfied are you with this software's functionality?

(no label)

Somewhat satisfied

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

Functionality – Asset management, alternative project delivery, etc.	5
Usability - Creating more wizards, easier inputs, better/more graphics, etc.	3
Current Requirements missing – materials standards, AASHTO/ASTM standards	2
Mobile Functionality	1
Third Party Integrations	4

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label)

Somewhat satisfied

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label)

Somewhat satisfied

Q13

Any additional feedback for Infotech?

BAMS/DSS IS STILL A PRODUCT, AND SOMETHING I USE REGULARLY.

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label)

Neutral

Q15

If you feel the PTF doesn't align the software to meet your needs, please explain why.

SEEM TO HAVE FORGOTTEN ABOUT BAMS/DSS

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label) **Neutral**

Q15

If you feel the PTF doesn't align the software to meet your needs, please explain why.

The PTF has a very difficult task trying to keep the software generic enough for everyone to be able to use and agencies have to either customize or change their business processes to utilize the software. Our construction and materials implementation has been slowed by having to wait for enhancements delivered in future releases. It's frustrating, but just a side effect of joint development and limited funds.

Q7

What is your favorite functionality/feature of the AASHTOWare Project software?

Web platform and unified database

Q8

How satisfied are you with this software's ease of use?

(no label)

Somewhat satisfied

Q9

How satisfied are you with this software's functionality?

(no label)

Very satisfied

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

Functionality – Asset management, alternative project delivery, etc.	1
Usability - Creating more wizards, easier inputs, better/more graphics, etc.	3
Current Requirements missing – materials standards, AASHTO/ASTM standards	5
Mobile Functionality	2
Third Party Integrations	4

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label) **Very satisfied**

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label) **Very satisfied**

Q13

Respondent skipped this question

Any additional feedback for Infotech?

Page 3

Q14

Respondent skipped this question

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

Q15

Respondent skipped this question

If you feel the PTF doesn't align the software to meet your needs, please explain why.

Q16

Respondent skipped this question

Are you open to a follow-up conversation about your responses? If so, please enter your email address here.

Q17

Respondent skipped this question

Please provide your email address if you're eligible to participate in our drawing for one of the five \$25 Amazon gift cards.

Q1

Which agency do you represent?

Wisconsin Department of Transportation

Q2

What is your role within your agency (title)?

AASHTOWare Project System Administrator

Q3

6+ years

How many years of experience do you have with the AASHTOWare Project software?

Q4

Daily

How often do you use the software?

Q5

Which modules do you currently use?

**AASHTOWare Project Preconstruction,
AASHTOWare Project Construction & Materials,
AASHTOWare Project Civil Rights & Labor,
AASHTOWare Project FieldManager**

Q6

How likely are you to recommend the AASHTOWare Project software to a peer or colleague?

(no label) **Likely**

Page 2

Q7

What is your favorite functionality/feature of the AASHTOWare Project software?

Web based system with a unified database.

Q8

How satisfied are you with this software's ease of use?

(no label) **Very satisfied**

Q9

How satisfied are you with this software's functionality?

(no label) **Somewhat satisfied**

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

Functionality – Asset management, alternative project delivery, etc.	2
Usability - Creating more wizards, easier inputs, better/more graphics, etc.	1
Current Requirements missing – materials standards, AASHTO/ASTM standards	5
Mobile Functionality	3
Third Party Integrations	4

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label) **Very satisfied**

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label)

Somewhat satisfied

Q13

Any additional feedback for Infotech?

It is difficult for agencies to keep up with the number of enhancements and issues being resolved. Our agency only applies the major releases twice per year. I wonder if InfoTech would consider reducing the number of TMRs in releases and conducting more thorough system wide testing. What I have noticed is that sometimes development might be done in silos and a change made in one module was not tested or thought through on how it would affect another module (e.g. change in Preconstruction and how it will affect a contract when transitioned to Construction.)

Also overlapping implementation efforts is difficult for states with small support teams. State resources are sometimes limited and we are unable to provide the necessary time and resources to work on multiple implementation projects and system upgrades at the same time.

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label)

Neutral

Q8

How satisfied are you with this software's ease of use?

(no label)

Somewhat satisfied

Q9

How satisfied are you with this software's functionality?

(no label)

Somewhat satisfied

Q10

Please rank the following in order of importance from 1 to 5 where 1 is most important to you and 5 is least important to you.

Functionality – Asset management, alternative project delivery, etc. **2**

Usability - Creating more wizards, easier inputs, better/more graphics, etc. **4**

Current Requirements missing – materials standards, AASHTO/ASTM standards **1**

Mobile Functionality **5**

Third Party Integrations **3**

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label)

Somewhat satisfied

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label)

Somewhat satisfied

Q13

Respondent skipped this question

Any additional feedback for Infotech?

Page 3

Q14

How well does the AASHTOWare Project Task Force (PTF) align the AASHTOWare Project software to meet your needs?

(no label)

Neutral

Q15

If you feel the PTF doesn't align the software to meet your needs, please explain why.

Need for easier import of project data from outside sources.

Q16

Are you open to a follow-up conversation about your responses? If so, please enter your email address here.

Yes

Q17

Please provide your email address if you're eligible to participate in our drawing for one of the five \$25 Amazon gift cards.

Q11

How satisfied are you with the implementation support and services provided by Infotech?

(no label)

Somewhat satisfied

Q12

How satisfied are you with the ongoing support provided by Infotech?

(no label)

Somewhat satisfied

Q13

Any additional feedback for Infotech?

User interface is outdated, agency views are too limited in functionality, system was marketed as more configurable than reality causing still a lot of customization, documentation is incorrect or incomplete especially mapping docs and use of agency views and Iron Python, way too many bugs are allowed in releases (need better testing), Info Tech needs more accountability of how they use our service units when contracted, training is way too expensive for what you get
