

# AASHTOWare PermitRoute Powered by ProMiles

Current Status & Next Steps

2026 AASHTOWare Connect | Des Moines, IA | April 21-22, 2026

# What is AASHTOWare PermitRoute

- **AASHTOWare Strategic Alliance Partnership**
- Oversize/Overweight Permitting and Routing System
- For State Transportation Agencies
- Configured and customized for each agency
- Cloud based automated real-time solution
- Turnkey solution
- Can be purchased out of the AASHTOWare catalog

# Oversize/Overweight Permitting and Routing

- All States have the authority per 23 CFR § 658 (h) to implement a program for permitting travel of vehicles that exceed federal size and weight limits for non-divisible vehicles or loads
- 2022 final rule of the National Bridge Inspection Standards (NBIS, 23 CFR§ 650 Subpart C) requires analysis for routine and special permit loads to ensure bridge safety
- OS/OW permitting is a high visibility program for each state
- Industry expects 24/7 operation and a generous self-issue envelope
- PermitRoute has self-issue rates exceeding 90% for some States

# Oversize/Overweight Permitting and Routing

# EZ-Haul

- Launch Date: 08.30.2022
- Self Issue Statistics:

Year	Total Permits	Self-Issued	% Self-Issued
2017	88,010	18,506	21%

2020	78,275	31,612	40%
2021	82,214	30,171	37%
2022	86,364	43,426	50%
2023	100,928	62,171	62%
2024	114,533	68,984	60%
2025	121,313	73,846	61%
<b>Average</b>	<b>94,724</b>	<b>41,298</b>	<b>42%</b>

# EZ-Haul Improvements

- Prior to EZ-Haul, VADMV had an average turnaround time of:
  - 1-2 days for Routine Single Trips
  - 5-10 days for Superloads
- Since launching EZ-Haul, VADMV has consistently averaged 1.2 days turnaround for all permit types.

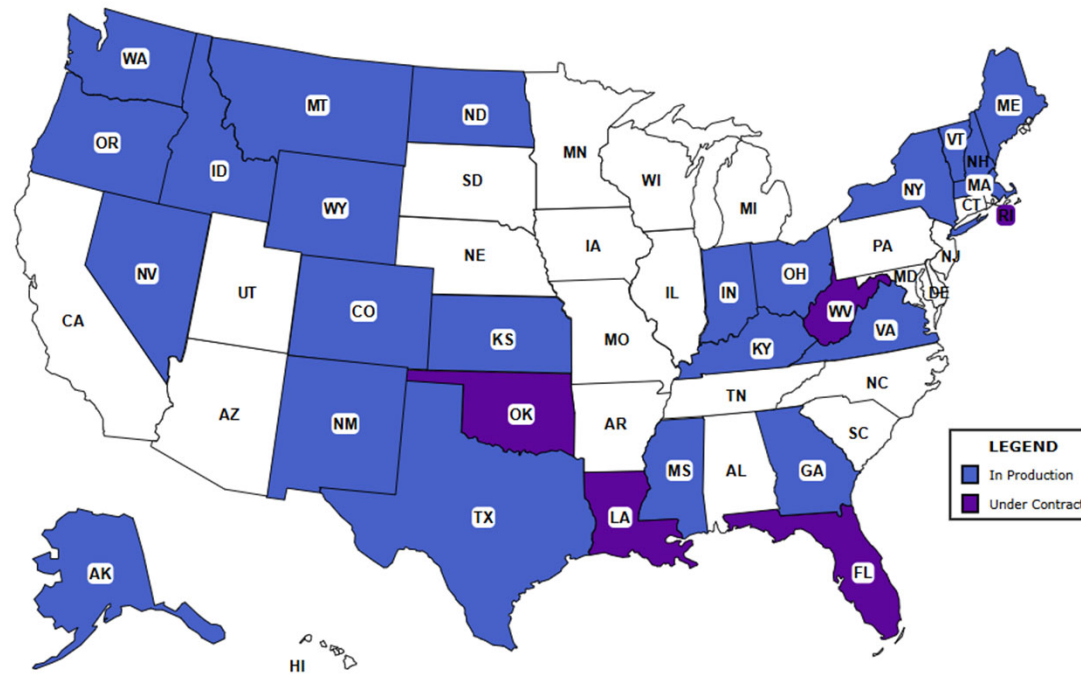

# VADMV Experiences with EZ-Haul

- No more paper maps
- Increased compliance
- Positive customer and employee feedback
- Employees can focus on challenging loads
- ProMiles is part of the team

# States Using PermitRoute
